MATERIAL SAFETY DATA SHEET

1. Product and Company Identification

Material name		
	2097 KEL-THANE II INTERIOR SATIN CLEAR	
Version #	01	
Revision date	01-19-2011	
CAS #	Mixture	
Product code	2097	
Product use	Paint.	
Manufacturer/Supplier	Kelly-Moore Paint Co., Inc. 987 Commercial St., San Carlos, CA 94070 E-mail: rstetson@kellymoore.com Telephone number: 1-800-874-4436 Contact Person: Robert Stetson	
Emergency	Emergency Telephone Number: 1-800-424-9300	
2. Hazards Identification		
Physical state	Liquid.	
Appearance	Milky white to colored liquid.	
Emergency overview	WARNING	
	Causes skin, eye and respiratory tract irritation.	
OSHA regulatory status	This product is hazardous according to OSHA 29 CFR 1910.1200.	
Potential health effects		
Routes of exposure	Inhalation. Eye contact. Skin contact.	
Eyes	Causes eye irritation.	
Skin	Causes skin irritation.	
Inhalation	Causes respiratory tract irritation. Prolonged inhalation may be harmful.	
Ingestion	Ingestion may cause irritation and malaise.	
Target organs	Central nervous system. Eyes. Respiratory tract. Skin.	
Chronic effects	Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis. Organic solvents may be absorbed into the body by inhalation and cause permanent damage to the nervous system, including the brain.	
Signs and symptoms	Skin and eye irritation. Respiratory tract irritation. Vapors may cause drowsiness and dizziness.	
Potential environmental effects	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.	

3. Composition / Information on Ingredients

Components		CAS #	Percent
Acrylic copolymer		Proprietary	<22
Composition comments	Components not listed are either non-hazardous or are below reportable limits. All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.		
4. First Aid Measures			
First aid procedures			
Eye contact	Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention. In case of irritation from airborne exposure, move to fresh air. Get medical attention if symptoms persist.		
Skin contact	Immediately remove contaminated clothing and shoes and wash skin with soap and plenty of water. Get medical attention. Wash contaminated clothing before reuse.		
Inhalation	Move to fresh air. Oxygen or artificial respira continues.	ation if needed. Get medical a	attention if any discomfort

Ingestion	Immediately rinse mouth and drink plenty of water. Keep person under observation. If person becomes uncomfortable take to hospital along with these instructions.
Notes to physician	Treat symptomatically.
General advice	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
5. Fire Fighting Measures	
Flammable properties	The product is not flammable.
Extinguishing media	
Suitable extinguishing media	Extinguish with foam, carbon dioxide, dry powder or water fog.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Protection of firefighters	
Protective equipment and precautions for firefighters	Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
6. Accidental Release Mea	sures
Personal precautions	Avoid inhalation of vapors and contact with skin and eyes. Wear appropriate personal protective equipment (See Section 8).
Environmental precautions	Prevent further leakage or spillage if safe to do so. Do not contaminate water.
Methods for containment	Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Prevent entry into waterways, sewer, basements or confined areas.
Methods for cleaning up	Should not be released into the environment.
	Large Spills: Absorb in vermiculite, dry sand or earth and place into containers.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Following product recovery, flush area with water.
	Never return spills in original containers for re-use. For waste disposal, see section 13 of the MSDS.

7. Handling and Storage

-	Provide adequate ventilation. Avoid contact with eyes, skin, and clothing. Avoid breathing vapor. Wear appropriate personal protective equipment. Wash thoroughly after handling. Observe good industrial hygiene practices.
Storage	Store in tightly closed original container in a dry, cool and well-ventilated place. Store away from incompatible materials.

8. Exposure Controls / Personal Protection

Occupational exposure limits No exposure limits noted for ingredient(s). **Engineering controls** Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Personal protective equipment Eye / face protection Wear approved safety goggles. Skin protection Nitrile gloves are recommended, but be aware that the liquid may penetrate the gloves. Frequent change is advisable. **Respiratory protection** Use NIOSH certified, air purifying respirators with N-, P-, or R- series particulate filter and organic vapor cartridges when concentration of vapor or mist exceeds applicable exposure limits. protection provided by air-purifying respirators is limited. Selection and use of respiratory protective equipment should be in accordance with OSHA General Industry Standard 29 CFR 1910.134. Consult a qualified industrial hygienist or Safety Professional for respirator selection guidance. **General hygiene** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective considerations equipment to remove contaminants.

9. Physical & Chemical Properties

•	=
Appearance	Milky white to colored liquid.
Color	Various.
Odor	Slightly ammoniacal.
Odor threshold	Not available.
Physical state	Liquid.
Form	Liquid.
рН	7 - 10
Melting point	Not available.
Freezing point	Not available.
Boiling point	Not available.
Flash point	Not available.
Evaporation rate	< 1 (n-BuAc=1)
Flammability limits in air, upper, % by volume	Not available.
Flammability limits in air, lower, % by volume	Not available.
Vapor pressure	Not available.
Vapor density	> 1 (Air=1)
Specific gravity	Not available.
Solubility (water)	Moderately soluble
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.

10. Chemical Stability & Reactivity Information

10. Chemical Stability & R	eactivity information		
Chemical stability	Material is stable under normal conditions.		
Conditions to avoid	Contact with incompatible materials.		
Incompatible materials	Strong oxidizing agents. Stron	ig acids.	
Hazardous decomposition products	Carbon oxides. Nitrogen oxide	es. Silicon oxides.	
Possibility of hazardous reactions	Will not occur.		
11. Toxicological Information			
Acute effects	Causes skin, eye and respiratory tract irritation. In high concentrations, vapors and spray mists are narcotic and may cause headache, fatigue, dizziness and nausea. Ingestion may cause irritation and malaise.		
Sensitization	Not a skin sensitizer.		
Chronic effects	Prolonged or repeated contact may dry skin and cause dermatitis. Organic solvents may be absorbed into the body by inhalation and cause permanent damage to the nervous system, including the brain.		
Carcinogenicity	Potentially carcinogenic components are typically only present in trace amounts. Due to the form of the product, exposure to the potentially carcinogenic components is not expected.		
ACGIH Carcinogens			
Crystalline silica (CAS 14808-60-7) Ethylbenzene (CAS 100-41-4)		A2 Suspected human carcinogen. A3 Confirmed animal carcinogen with unknown relevance to humans.	
IARC Monographs. Overall Evaluation of Carcinogenicity			
Crystalline silica (CAS 14808-60-7)		1 Carcinogenic to humans.	
Ethylbenzene (CAS 100-		2B Possibly carcinogenic to humans.	
US NTP Report on Carcinogens: Known carcinogen Crystalline silica (CAS 14808-60-7)		Known carcinogen.	

Components of the product may be absorbed into the body through the skin.

Further information

12. Ecological Information

Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.	
Environmental effects	An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.	
Persistence and degradability	No data is available on the degradability of this product.	
Bioaccumulation / Accumulation	No data available.	
Mobility in environmental media	The product is miscible with water. May spread in water systems.	
Partition coefficient (n-octanol/water)	Not available.	
13. Disposal Considerations		
Waste codes	Not regulated.	
Disposal instructions	Do not allow this material to drain into sowers/water supplies. This product in its procent state	

Disposal instructions	Do not allow this material to drain into sewers/water supplies. This product, in its present state, when discarded or disposed of, is not a hazardous waste according to Federal regulations (40 CFR 261.4 (b)(4)). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste. Dispose in accordance with all applicable regulations.
Waste from residues / unused products	Dispose in accordance with applicable federal, state, and local regulations.
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport Information

DOT

Not regulated as dangerous goods.

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

15. Regulatory Information

US federal regulations	This product is hazardous according to OSHA 29 CFR 1910.1200.	
US EPCRA (SARA Title III)	Section 313 - Toxic Chemical: De minimis concentration	
Ethylbenzene (CAS 100	-41-4) 0.1 %	
US EPCRA (SARA Title III)	Section 313 - Toxic Chemical: Listed substance	
Ethylbenzene (CAS 100	-41-4) Listed.	
CERCLA (Superfund) reportabl	le quantity (lbs)	
None		
Superfund Amendments and R	eauthorization Act of 1986 (SARA)	
Hazard categories	Immediate Hazard - Yes Delayed Hazard - No Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No	
Section 302 extremely hazardous substance	No	
Section 311 hazardous chemical	No	
Inventory status		
Country(s) or region	Inventory name	On inventory (yes/no)*
Australia	Australian Inventory of Chemical Substances (AICS)	No
Canada	Domestic Substances List (DSL)	No

Country(s) or region	Inventory name		On inventory (yes/no)*
Canada	Non-Domestic Substances Lis	st (NDSL)	No
China	Inventory of Existing Chemical Substances in China (IECSC)		No
Europe	European Inventory of Existin Substances (EINECS)	g Commercial Chemical	No
Europe	European List of Notified Che	mical Substances (ELINCS)	No
Japan	Inventory of Existing and New	/ Chemical Substances (ENCS)	No
Korea	Existing Chemicals List (ECL))	No
New Zealand	New Zealand Inventory		No
Philippines	Philippine Inventory of Chemi (PICCS)	cals and Chemical Substances	No
United States & Puerto Rico	Toxic Substances Control Act	t (TSCA) Inventory	No
*A "Yes" indicates that all compo	nents of this product comply with the	e inventory requirements administered by the gov	verning country(s)
State regulations	WARNING: This product con	tains chemicals known to the State of Califo	ornia to cause cancer.
US - California Hazardous S	ubstances (Director's): Listed	l substance
